

PHOENIXTEC™ Battery

PHOENIXTEC™ BATTERY PH12V SERIES

Valve Regulated Lead-acid UPS Batteries

Product Introduction

PHOENIXTEC™ battery PH12V series batteries adopt unique and advanced technology and production processes. They are being designed with more focus on compatibility with UPS and system optimization. Compared to other batteries on the market, PH12V series batteries can provide longer float charging life time and more powerful discharging characteristics. It is an ideal product for UPS backup application.

Applications

UPS, Telecom, Security Standby Power Supply, Medical Instruments, and so on.

Product Features

- **Long-life Design**

The advanced grid manufacturing technology leads to a highly improved grid corrosion resistance. The battery design life is up to 10 years at floating condition.

- **Excellent High Rate Discharge Performance**

Due to a special plate design and a terminal design, together with an advanced formulation and a welding process, the high rate discharge performance is significantly increased with the ensuring of enough battery capacity.

- **Flame Retardant**

The battery containers and lids are manufactured with UL94-V0 level flame retardant ABS materials.

- **Low Self-discharge Rate**

Battery self-discharge rate is less than 3% at 25°C after 28 days.

- **High Consistency**

Thanks to the automatic production process and the resulting high productivity, Phoenixtec batteries have good performance in plate and battery consistency. They are more suitable for being used in series in UPS application.

- **Best Compatibility With UPS**

The product design work was done to achieve a perfect combination with UPS and whole system cost optimization.

- **Convenient Installation And Maintenance**

The embedded terminal design makes the installation and maintenance work simple and convenient. It also increases the high current trafficability performance.

PHOENIXTEC™

Specifications

Item No.	Voltage (V)	Capacity /Ah (C20@25°C)	W/cell 1.67V@15min	Internal Resistance (mΩ)	Dimensions (mm)				Weight (Kg)	Terminal

Battery Characteristics

Design life	Up to 10 years in standby service (25°C)
Operating Temperature Range	Charge: -20°C ~ 40°C Discharging: -20°C ~ 55°C Storage: -15°C ~ 50°C
Capacity Affected by Temperature	103% C ₂₀ @40°C 100% C ₂₀ @25°C 86% C ₂₀ @0°C
Float Charging Voltage	13.5V - 13.8V (Recommend 13.6V)
Equalizing Charging Voltage	14.1V - 14.4V (Recommend 14.1V)
Float Charging Temp. Coefficient	-18mV/°C
Recycling Usage Temp. Coefficient	-30mV/°C
Max. Charging Current	0.25CA
Max AC ripple (charger)	Less than 2%
Monthly Self Discharge Rate	Less than 3% (25°C)

Constant Power Discharge (Watts/Cell@25°C)

PH12-18

Operation and Maintenance

Charging

Float Charging Voltage: 13.5 - 13.8V (Recommend: 13.6V)

Equalizing Charging Voltage: 14.1 - 14.4V (Recommend 14.1V)

Daily Maintenance

In order to control the operation status of battery and equipment, please follow below methods periodically to check the battery and record.

Frequency	Inspection and Maintenance Items
Monthly	Battery pack overall float charging voltage, battery appearance, battery temperature, connecting parts, safety valve.
Quarterly	Battery pack overall float charging voltage, each battery float charging voltage, battery appearance, battery temperature, connecting parts, safety valve.
Annually	Battery pack overall float charging voltage, each battery float charging voltage, battery appearance, battery temperature, connecting parts, safety valve. Discharge test (discharge 30~40% of the nominal capacity and pick out the laggard batteries.)

Problems and Processing Methods

Problems	Processing Methods	Remarks
Leakage	Replace	
Broken	Replace	
On Fire	Replace	Please use dry powder extinguisher
Abnormal appearance	Contact supplier	
Over high temperature	Please check the charging and discharging parameters or replace the faulty battery	
Insufficient Capacity	Equalizing charging the single battery for more than 24 hours	Replace if the capacity is still insufficient
Single Battery Voltage too low	Equalizing charging the single battery for more than 24 hours	

Specifications are subject to change without prior notice.
